

## DUVALE PLC CASE STUDY

# Lords Cricket Ground - Marylebone

### BRIEF

**Divisions** Operable Wall Systems installed 3 no sets of moveable wall systems in the new steel structure Hospitality Building which replaced the old tent marquees in 1999. Divisions' systems were implemented to enable floor space to be used effectively so that functions of varying sizes could be held.

The Hospitality Building was erected on the nursery slope outside the main ground, falling 1 metre over 70 metres. Divisions successfully installed the tracking system on this slope; completing the project on time, within budget and to the complete satisfaction of the Marylebone Cricket Clubs.

### SPECIFICATION

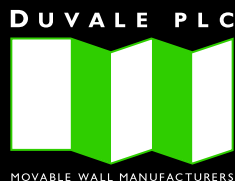

- Duvale Type 110c
- Series 4500
- White Laminate Finish
- Two Carrier Suspension

### TESTIMONIAL

“We have a very large Hospitality Suite here at Lords and it is vital that we have the option to allow more than one party to use this at a time. The Duvale sliding partitions allows us to do this easily and surprisingly quickly given the size of the openings spanned.”
